The right financial know-how can be essential to securing your personal wealth and the long-term health of your practice. Merrill Lynch Financial Advisors understand the close connection between your personal and business finances and can introduce you to the healthcare banking specialists at Bank of America Merrill Lynch, who tailor comprehensive credit and cash management solutions to help meet your evolving business needs.
This is an exciting time in dentistry due to the technological improvements and advances in both dental and medical knowledge. Improving oral and the affiliated medical health will always be an issue. We thought we had caries beat thirty years ago when fluorides were prevalent. Now we are seeing a resurgence of caries due to dietary issues and the popularity of energy drinks. Although the boomer generation has kept most of their teeth, maintenance is the issue. In the forty years of my career, gone is the era when fifty percent of the population over sixty had no teeth. We truly have become better at improving patients’ oral and overall health. There will always be a great need for our services, and dentistry will continue to be a rewarding profession.

“The Cincinnati Dental Society's mission is to support, educate and advance the interests of our members while educating and serving our community.” Our society achieves this because of those who volunteer. And I thank those who do. Our Mission is also met because of the diligence of our executive director, Vicki Nixon. Her organizational skills with Council, the various Committees, and the Oral Health Foundation, contribute highly to this organization's success. We are fortunate to have her. I look forward to working with her and all the society's members this year.

Please support the mission of this Cincinnati Dental Society. Become involved, or stay involved.
Cash Flow Insight™ for the achiever in you

Cash Flow Insight powered by PNC CFO — an innovative online financial management experience to help you visualize, understand and project your practice's cash flow, so you can make more informed decisions now, next month and next year. Try it at no cost today! Call a Cash Flow Insight Consultant at 855-762-2361, stop by any PNC branch or go to pnc.com/cashflowinsight

*Offer requires a PNC Business Checking account and enrollment in PNC Online Banking. Offer valid during your current statement cycle period and two additional statement cycles, which constitutes your free trial period. One free trial period per customer, based on the enrollment date of the first account you enroll in Cash Flow Insight. Your free trial period for all accounts in Cash Flow Insight ends at the same time. At the end of your free trial, you will remain enrolled in Cash Flow Insight and be charged a fee of $10/month. If you do not want to continue with Cash Flow Insight, you may opt out of the service on your Preferences page within Cash Flow Insight. Happy New Year! We had a fantastic 2013 and I look forward to another fantastic year! I thought it would be nice to have the January Bulletin reflect on 2013 so we can embrace for what is to come in 2014. But, first, I would like to take this opportunity to thank Dr. Kluener for being a great leader and mentor. He taught me how to not “sweat the small stuff” and focus on what truly is important. That lesson helped me overcome a tragedy in my family. One that affected Sasha, my niece and now assistant.

Her husband was killed in Afghanistan in May of 2013. She had their first child, Michael Jr., in June. She moved from Augusta, Georgia back home to be with family. I loved the fact that she was back, but hated why. How did she know that one day she would get a visit from someone telling her that her husband was killed? She did not, but she is doing well. Sasha is a wonderful person, mother, daughter and niece. Michael Jr. is my pride and joy, almost my own. He has brought so much joy and happiness to our family despite the loss. So, when lunch is not so great at one of our continuing education courses, that’s okay. That’s minor compared to most things. So, thanks Dr. Kluener for teaching me how to not “sweat the small stuff”.

I would be remiss if I did not thank our Council and committee members. I truly am blessed to work with such a great group of people. Different opinions and new ideas are welcome, and, for me personally, it is FUN to see everyone coming together for the same cause - organized dentistry - our future. I encourage you to get involved at some point, and, at whatever level works for you. Whether that is joining a committee or donating your time and talent. You pick! Because, without your involvement organized dentistry may change to be unrecognizable in the future!

So, Happy New Year! Best wishes for a prosperous, healthy and peaceful 2014!

They say time flies. this is true when you are having fun or are old. Well, when you are old and having fun, it is flying light speed. My term as president has ended and this is the last time you will read this BS from my president’s message (for those of you who actually read it).

What is old? Our class of 1974 will be 40 years this year. It seems old to a lot of us, but that is relative. Recently, I attended the past president’s dinner where Dr. Fred Lee, our most senior past president, age 96, was there to give Vicki his annual kiss. Fred was president in 1960. I thought I was old, but in 1960 I was in 6th grade and was getting wacked by Sister Sara Ann on the knuckles with a ruler for talking. Many of you were a twinkle in your dad’s eye. Fred is going strong. I hope everyone of you will be as lucky as Dr. Lee as you approach light speed time!

The olds guys and young gals (right ladies!) at the past president’s dinner were talking about our profession and how it is still one of the best, but it is changing rapidly. Everyone of them contributed to our society and our profession. Some more than others. Those presidents who selected Berth Miller, Bev Fortner and Vicki Nixon are especially to be commended. Our Executive Directors, do all the work. I would like to thank Vicki for her tireless commitment to our society and our profession. Nobody does it better! More importantly, I would like to express sincere thanks to all committee members and their chairs. As I said back in my installation speech, you are the true workhorses and essence of our society!

Our future officers were installed this month. They were elected at our November continuing education course and the election was a close vote (104 to 0). Drs. Wauligman, Schaeffer (hang in there Mike), Parker, Heck, Chopra, and Glogowski will represent us well. The society will be like All State Insurance - “In Good Hands”. They are a great bunch and will do an excellent job! To quote Roy Rogers, “Happy Trails to all of you” and Thanks Again!
Superior Dental Care (SDC) is the leading provider of dental benefits to employers throughout Ohio, Kentucky and Indiana. Join our network to reach thousands of new patients in your area, as well as your existing patients who are already covered by SDC. Plus, enjoy online access to our system through Superior Direct Connect, electronic claim filing, prompt claim payments by check or direct deposit, free advertising, and more!

Call to Order: President, Dr. Larry Kluener called the meeting to order at 7:00 pm.

Roll Call:
Members Present: Chopra, Dorr, Glogowski, Hanlon, Harris, Heck, Khetarpal, Kluener, Murdock, Newby, Parker, Pick, Suffield, Walter and Wauligman.

Members Absent: Schaeffer
The September 9, 2013 Council Meeting Minutes were unanimously approved as posted.

The President's Report:
Dr. Larry Kluener announced the Ohio State Dental Board's call for nominations for the position of general dentist board member. Criteria include: being in practice at least 5 years; familiarity with Ohio's Dental Practice Act; knowledge of regulatory issues related to dentistry; have a history of involvement with ODA governmental affairs and activities.

Dr. Pick will chair the 2014 Golf Outing. While the exact date and location have yet to be finalized, the event will likely be moved to a Friday. Keep watching the CDS bulletin for updates and information on how to register.

Correspondence:
Dr. Mary Hanlon read a note from Dr. Linda Smith in which she thanked the Cincinnati Dental Society for nominating her for the Ohio Dental Association’s Marvin Fisk Humanitarian Award. Vicki Nixon was also acknowledged for her efforts toward advancing the society's work to provide dental care to the needy. A note from Lori Schwartz of CincySmiles Foundation thanking the society for their sponsorship of the Tooth Fairy Trot was also shared.

Treasurer's Report:
Dr. Matthew Parker reported the society is meeting projected income levels. At this point, a $12K surplus is anticipated.

Executive Director's Report:
Vicki Nixon announced plans to update the membership directory in 2014. Don’t miss out on your chance to provide any changes to your contact information!

Sasha has returned to the society, providing part time help in the Executive Office. Welcome back, Sasha!!!

In September, Executive Director Vicki Nixon attended the GKAS Institute Ambassador Program in St. Louis. A great time was had by patients and dental personnel and Vicki picked up a few tips to enhance our own GKAS program!!

Nominating Committee Report
Dr. Patty Walter proudly presented the 2014 Nominating Committee Report. The role of co-treasurer has been added to bring continuity to the complexity of the treasurer position. The report will be faxed to all members, along with a request for additional nominations. The election will be held at the November CE program by secret paper vote. Motion to approve the report (Pick/Chopra) was unanimously approved.

CDS Committee Updates
Membership: Dorr
A new member event will be held at the Christian Moerlin Brewing Company in January/February, 2014. Target attendees include non members and corporate dentists. Keith Kerns will be the guest speaker.

ODA Updates:
Dental Care Programs and Dental Care Practice: Chopra
ODA survey results revealed the following trends: dental specialists and corporate dentists are struggling as more general dentists have expanded the treatment options offered in house. Insurance companies are increasing their scrutiny of dental claims. Audits of services performed, especially for dentists using Cerec technology, are on the rise also. In office dental discount plans to patients who do not have dental insurance are coming under scrutiny from dental insurance companies. If your office offers such a plan, please consult your attorney.

The ACA has not yet defined a standard dental benefit for the state of Ohio. DHATs are now allowed in New Hampshire and independent hygiene practices are open in 3 states. The number of hygienists in the state has increased while the number of dentists has remained stable.

Questions regarding records retention and issues with the latest round of state radiation inspections are being addressed.

Vacancies in the OSDB have prompted changes in how business is currently conducted (e.g. tasks being delegated to committees in lieu of the full board). Two investigators have retired. Their replacements have histories in law enforcement, not dentistry. The assistant Executive Director position remains vacant.

The definition of a “dental prosthesis” requires further clarification due to concerns with Ohio’s sales tax laws.

The governor’s “opiate action team” is focusing on long term opiate therapy regimens.
DIFFICULT PATIENTS? WE CAN HELP YOU WITH IV SEDATION!

At Advance Dentistry, Dr. Sayre and his team are there to help you with your more difficult patients. For over 30 years Dr. Sayre has changed the lives of the most fearful patients and the ones with the worst gag reflex. If some of your patients have high anxiety, have a bad gag reflex, do not respond well to local anesthesia, or are physically and/or mentally challenged, we can help them with IV Sedation. Medically challenged patients with heart conditions do much better in high stress environments with IV sedation. There are many challenges in dentistry and the appropriate level of anesthesia is important. We can even have general anesthesia completed in the office with board certified anesthesiologist.

We can provide general dentistry to oral surgery, all under IV Sedation. The extremely fearful patient is our special concern and all patients are valued and not judged. Along with IV Sedation, we can also offer 3D imaging with our iCat technology to help us better diagnose more complicated problems.

We welcome your professional referrals. Our goal is to work in tandem with your preventative care and create overall dental health for your patients.

Call Dr. Scott Sayre today. We look forward to discussing your patient’s needs and how we can help you get them on the road to a healthier smile.

 OUR PRIMARY CARE IS KEEPING YOUR BUSINESS HEALTHY.

Our total financial solutions, tailor-made for the healthcare industry, are designed to keep your business growing and going strong.

We’ve worked with more than 2,000 healthcare providers, practitioners and organizations, on everything from individual wealth management to solutions for practices and institutions.

Our dedicated teams are ready to put that experience to work for you.

To find out more, contact Katie Burba at 513-552-1465.

Gary Robins, DMD

“Non-Odontogenic Toothache and Conditions That Mimic TMD”

Offered Exclusively to Dentists, Spouses and their Staff!

Supported by: Cincinnati Insurance Co., Huntington Bank, Precision Handpiece Repair and US Bank

Dr. Gary Robins will cover how diagnosis is the most important component when treating patients with Orofacial Pain. Missed or incomplete diagnosis is the main reason for treatment failure. Most dentists know how to treat the obvious toothache or TMD problem when it is the primary cause. However when treatment failure occurs, what’s the next step? Secondary conditions when missed in some cases could lead to dire consequences.

This lecture will present an overview of differential diagnosis. Conditions that present as odontogenic and/or TMD pain but are not of dental cause.

Date        Monday, February 10, 2014       CE Credits    1 Hour
Schedule    6:15 - 7:30 pm, Heavy Appetizers and Cash Bar   ***  7:30 - 8:30 pm, Program

Continuing Education
February 7: “Treatment of Snoring and Obstructive Sleep Apnea” by Kathleen Bennett, D.D.S.
Location: Sharonville Convention Center, 11355 Chester Road, 513-771-7744
Schedule: 8:00 a.m. Registration ** 8:30 a.m. Program
Staff Invited: Dental Hygienists, Dental Assistants and Administrative Personnel of registered dentists.
CE Credits: 7 CE Credits
About the Program: Sixty-seven percent of the adults in your dental practice are snorers. Snoring and obstructive sleep apnea (OSA) can have significant effect on a patient’s overall health. Dentists can play an important role in identifying and treating sleep disorders. You gain the practical clinical information you need to accurately evaluate the patient and effectively treat them with an oral appliance therapy program.
This seminar provides you with information on basic and advanced techniques in examination, testing and treatment. This presentation will provide a step-by-step protocol for use of oral appliances and medical treatment options for snoring and OSA. Also, understand how oral appliances work.
Course Objectives: At the conclusion of the seminar, the participant should be able to:
1. Identify the anatomy of the upper airway and how snoring and obstructive sleep apnea occurs.
2. Understand how to evaluate a patient and what diagnostic tests are used.
3. Recognize how to develop a strong working relationship with the sleep medicine physician.
4. Recognize most of the oral appliances currently in use.
5. Understand how to work with the insurance companies and increase reimbursement.
About the Speaker: Kathleen M. Bennett, D.D.S., has practiced general dentistry for 26 years. She graduated from Georgetown University and SUNY Buffalo School of Dental Medicine. She achieved Diplomat status with the American Academy of Dental Sleep Medicine in 2002 and frequently lectures nationally on oral appliance therapy for the treatment of obstructive sleep apnea. Dr. Bennett also services on the Board of Directors of AADSM and maintains a practice that is limited to oral appliance therapy.

Continuing Education
March 7: “Alternative Direct Composite Techniques Pushing the Boundaries of Everyday Dentistry” by Dennis Hartlieb, D.D.S.

Location: Sharonville Convention Center, 11355 Chester Road, 513-771-7744
Schedule: 8:00 a.m. Registration ** 8:30 a.m. Program
Supported by: Cincinnati Insurance Co., GlaxoSmithKline, Henry Schein Dental, Huntington Bank, Precision Handpiece Repair, Stock Yards Bank & Trust Company, Superior Dental Care, and US Bank.
Staff Invited: Dental Hygienists, Dental Assistants and Administrative Personnel of registered dentists
CE Credits: 7 CE Credits

About the Program:
In this jam-packed presentation, alternative direct free-hand bonding techniques will be demonstrated to challenge previous thoughts regarding the limitations and uses of composites. Among the many concepts reviewed, the presenter will demonstrate the use of direct resin bonding techniques that are not just limited to restoring Class IV and Class V restorations, but are critical for creating naturally appearing crown and bridge provisionalals, implant provisionalals, direct resin veneers, reversible prototype bonding for complex therapies, and the repair of fractured porcelain. A technique will also be shown for fabricating long-term direct resin bridges for missing anterior teeth, as well as the use of composite for esthetic, and stable, intracoronal periodontal splinting. Given the versatility of direct resin, the opportunities for its use are limited only by the imagination and expertise of the provider.

Course Objectives:
1. Prototype bonding – why, when and how
2. Implant temporaries – gingival sculpting to ensure cosmetic excellence
3. Salvaging implant restorations – what to do if your crown is not fully seated on the abutment after cementation
4. Endodontic treatment following crown cementation - esthetic sealing of access holes
5. Ribbond bridge – lateral incisor replacement with direct resin
6. Periodontal splinting – conservative and esthetic treatment
7. And much, much more

About the Speaker:
Dennis B. Hartlieb, DDS is a graduate of the University of Michigan School of Dentistry, and maintains a full time practice dedicated to cosmetic, implant and restorative dentistry. In addition to his private practice, Dr. Hartlieb is an Adjunct Associate Professor at the Marquette University School of Dentistry, in Milwaukee, Wisconsin, an instructor at the Center for Esthetic Excellence in Chicago and at the American Institute for Cosmetic and Implant Dentistry in Davisburg, Michigan.

Dr. Hartlieb has presented hands-on programs to dentists throughout the US and in Europe on the art and science of cosmetic bonding techniques. In addition to lecturing on anterior and posterior direct resin bonding techniques, Dr. Hartlieb teaches dental clinical photography utilizing Adobe Photoshop and PowerPoint for patient communication, and on restorative techniques for implant therapies.

A consultant for many dental manufacturers, Dr. Hartlieb is influential in the design of materials widely used in restorative dentistry. His dentistry has been seen in many dental publications and he has contributed articles on his techniques in restorative dentistry.

Dr. Hartlieb was recently inducted into the prestigious American Academy of Restorative Dentistry and named as one of the Top 5 people to watch in Dentistry by Dental Products Report. Dr. Hartlieb is a member of the American Dental Association, the American Academy of Cosmetic Dentistry, the Chicago Academy of Dental Research and the Chicago Academy of Interdisciplinary Dentofacial Therapy.

**November Council Meeting Minutes (continued from Page 7)**

The cleanliness and sterilization protocols of dental labs are coming under increasing scrutiny. Calls for oversight by the OSDB instead of the Board of Health are being made. Dentists are urged to keep all lab slips for at least two years.

HB 159 is facing increasingly stiff opposition.

Adjustments of adult dental Medicaid-coverage and reimbursement are on the horizon.

The ODA’s access to care plan includes a push to expand the roles of staff members within the dental office.

**Unfinished Business/New Business:**  
Announcements were read and the meeting adjourned at 8:30 pm
How do we begin to thank those that gave their time and talent in 2013? It is difficult to describe the difference our programs have made to the lives of hundreds of children and veterans. Again in 2013, we provided free dental care to the underserved in the Greater Cincinnati area through the Delta Dental Center at Oyler School (formerly Roselawn Dental Center), Lighthouse Youth Services, Fall Feast and our “Leave No Vet Behind” programs. Many of you donated care through our “Donating Care? Write it Up” program as well. We would like to take this time to reflect on the success of our programs, all because of YOU! Collectively over $1,000,000 in dental care, to date, has been donated, and this does not include the Dental OPTIONS program!

**Delta Dental Center at Oyler School (formerly the Roselawn Dental Center) - $64,843**

124 new patients were seen and there were over 209 encounters. Care rendered included oral exams, oral hygiene instruction, cleanings, restorations, stainless steel crowns and simple extractions. Specialty care, such as root canals and surgical extractions, were performed in private offices.

**“Donating Care? Write it Up” - $15,711**

There are many of you that donate care in your private offices outside of our programs that more than likely is unnoticed for many good reasons. We understand dentists don’t do this for recognition; it is out of the kindness of their hearts. However, we want to know! Dr. Mike Lee developed a form that easily keeps track of the donated care our members give in their private offices. We send this information to the Ohio Dental Association, which helps them illustrate to legislators that our dentists contribute to the access to dental care issues. In the future, please complete the “Donating Care? Write it Up” form that is included in this Bulletin. We greatly appreciate it!

DCWP Participants:
(Drs.) John Gennantonio, Michael Lee, Steve Moore, Elizabeth Mueller, Jan and Larry Tepe, Patty Walter and Ralph Wyand.
Fall Feast - $16,506

135 people received a basic exam, oral hygiene instruction and a goodie bag. Of the 135, we saw 9 children who also received fluoride treatment. A puppet show kept the children busy while waiting to see the dentist. Volunteers for the day were: (Drs.) Gerald Arnett, Laura Arnold, Ken Brandt, Manny Chopra, Allie Powers, Robert Reineck, and Patty Walter as well as Judy Arnett, Scott Arnold, Beth, Kasey and Priya Chopra, Taylor Jones, Vicki Nixon, Matt Powers, Victoria Roth, and Nick Voynovich. A special thanks to Benco, Henry Schein Dental, P & G and 3M ESPE for donating supplies for the event!

“Leave No Vet Behind” - $125,109

147 veterans were screened and care rendered at the Crest Smile Shoppe or privates offices consisted of 266 extractions, 89 restorations, 29 cleanings, 65 x-rays, 48 additional exams, 22 oral hygiene instructions, over 35 various removable prosthetics as well as a number of crowns, root canals and extensive perio treatment. Total care rendered since the beginning of this program is $458,500.

2013 “Leave No Vet Behind” Appreciation Reception

Back Row L to R: Matt Parker, Arnie Siegmund, Gerry Dacey, Gerald Arnett, Butch Stenger, Rob Ghering, Ray Blankenship, Bob Hamilton, Chris Thielen, Ken Brandt, Bert Jacob, Jon Santos, Fred Lee, Larry Kluener, Vicki Nixon and Wayne Wauligman; Front Row L to R: Judy Arnett, Bill Barr, Stan Cohen, Don Brandt and Roy Kluener

Reflections of 2013!

49th Annual Past President’s Dinner

October 21, 2013 at Nicholson’s

Another great time was had at our annual past president’s dinner! Everyone had fun time catching up, laughing and sharing the events of the past year. Once again, we were blessed with the presence of Dr. Fred Lee and Dr. Jack Gottschalk!

L to R: (Drs.) Jack Gottschalk, Bill Black and Tim Pohlman

L to R: Legends sharing their wisdom!

L to R: (Drs.) Tom Scheer, Tim Pohlman and Roger Clark

L to R: (Drs.) Jack Gottschalk, Patty Walter, Fred Lee and Tom Scheer

Lighthouse Youth Services

Once again, headed by Dr. Rebecca Hayden, workstations were conducted in February at the Lighthouse Youth Community School, which consisted of child oral health care, brushing and flossing, oral cancer and oral habits, and nutrition. Dental care was rendered at the Crest Smile Shoppe for a group of students with the most urgent needs. Thanks to all of the volunteers who participated in this program;

This program will be repeated again this year!

Northwest Local School Health Fair - $7,320

In August we screened 61 children. Dental assistant students from the Butler Tech High School Dental Assisting program were there helping with oral hygiene instruction. We have been doing this for many years and we have helped many families find a dental home at our Roselawn Dental Center, now Delta Dental Center at Oyler School. It has been awesome to see the oral health in the children of these families improve over the years!
Cincinnati Dental Society’s Oral Health Foundation Reception Fundraiser - October 3, 2013 at Eddie Merlots

Celebrating our partnership with Children’s Oral Health Network at Oyler School and the Jack W. Gottschalk, D.D.S. Notable Service Award

______ (Y/N) I will have malpractice insurance in effect for the period stated above and it will cover me while volunteering at another dental practice.

_________________________ Signature ___________________ Date ____________________
Purpose
To allow a group of general dentists to assist each other in case of unexpected disability, family emergency or death with organizational assistance from a committee formed for that purpose by the Cincinnati Dental Society (CDS). This helps keep patients in the stricken dentists’ office until such time as the dentist returns or the practice is sold. A stricken dentist must be registered as a volunteer with the DaD program prior to becoming a recipient of aid under the program.

Disability is defined as any medically substantiated long-term illness or injury in which a stricken member is expected to be unable to perform any function of his or her dental practice for a minimum of 21 days. This program is designed for use ONLY in the STRICTEST FORM OF EMERGENCY (i.e. heart attack, stroke, broken arm etc.) and is not intended to be used for planned, elective absences from the office. Routine pregnancy leave does not qualify for office coverage during the anticipated maternity leave. However, complications concerning pregnancy either before or after delivery may qualify as a disability.

Benefit
In times of true emergency DaD members will avail themselves to provide services to the patients of the stricken dentist for an initial period 30 days with an option to continue another 30 days up to a maximum of 90 days (or less if the stricken dentist can return). In the event that the stricken doctor is unable to return in that time frame, locum tenens can be arranged, or the practice can be disposed of. Volunteers will provide hygiene supervision, preventive care, emergency treatment or referral to appropriate specialists, and routine restorative care (that can be completed in a single visit). New patients can be scheduled with the understanding that they will be re-examined at no charge when the stricken dentist returns to the practice. Volunteers will provide services for three and one half days per week during normal working hours. The process of receiving aid is initiated by notifying the executive director of the Cincinnati Dental Society of the need. The DaD committee will then review and approve the application for assistance. The DaD committee may deny applications for aid for cause including, but not limited to, failing to comply with the stated purpose of the DaD program. There will be a two week waiting period after the application has been received and approved to allow for notification of all participating volunteer dentists.

Responsibility of Volunteer Participants
All dentists must hold an active unrestricted dental license issued by the Ohio State Dental Board to become a recipient of aid or act as a volunteer participant in the DaD program. All volunteers agree to schedule time in the stricken doctor’s office at the rate of one half day per 30 day period for a 3 month period. Volunteers understand and agree that their own practice schedule may need re-arranging to accomplish this and are willing to do so. Volunteers will not be asked to provide services you do not normally perform in your own office. No prosthetic procedures will be started. The volunteer dentist will complete and sign the patient’s progress note. Failing to schedule a half day to work when asked to do so by the stricken dentists receptionist will result in removal from the DaD coverage list until re-instated by the committee. Volunteer dentists must carry malpractice insurance and are responsible for the dental care provided while working in a stricken dentist’s office. Only the patients of the stricken dentist may be seen in the stricken dentist’s office as part of this program.

Responsibility of Stricken Dentist’s Staff
The office personnel will call the CDS executive director for DaD protocol, application for DaD aid and list of participants. The office personnel will contact the volunteers and coordinate the scheduling. All business functions will be provided. Chair side assistance for the volunteer will be provided. A list of specialists for referral must be provided, in addition to a list of laboratories. All patients must be notified in advance of the identity of the substitute dentist. Inform volunteer what procedures are scheduled for them (to avoid having to reschedule because the volunteer doesn’t do that procedure, i.e. endodontia or extraction). If prosthetic or other laboratory dependant procedures cannot await the return of the recipient dentist, consultation with the volunteer dentist must occur to determine the willingness of the volunteer to complete the treatment. Keep accurate records (form provided) of which doctors worked and pertinent comments and return them to CDS office. Any fees collected for dental services provided under this program shall remain with the stricken dentist’s office. This is a volunteer program.

Responsibility of Recipient Dentist
Execute an application for DaD aid. Provide all equipment, supplies and auxiliary personnel for volunteer dentists. Send an “Agreement and Release” prior to the assignment of a volunteer dentist. Provide positive pressure oxygen (N20 machine is insufficient). Hold an unrestricted dental license issued by the Ohio State Dental Board (in order to receive aid).

Removal from Program and Re-instatement
Participating dentists who do not comply with the terms of the program or not a member of the Cincinnati Dental Society will be terminated from the program by the DaD committee. Any dentist unwilling to schedule a session when called upon by the stricken dentist’s receptionist will be reported to the committee chair for removal from the list of aid eligible recipients. Reinstatement can occur if the doctor “catches up” with his fellow panel members by working assigned half days. To make this program work volunteers and their staffs will likely be inconvenienced.
Welcome New Members!

We are pleased to introduce the following new members who have recently joined our society. If a new member is located near you, put your best foot forward, give them a call and extend your welcome to them. Even better, invite them to our next CDS Member Event and introduce them to your colleagues!

Condolences

At the age of 78, Dr. Robert Elson's wife, Beverly, passed away peacefully on December 27, 2013 surrounded by her family. In lieu of flowers, contributions may be made to Hospice of Cincinnati, P.O. Box 633597, Cincinnati, OH 45263 or the Memorial Sloan - Kettering Cancer Center, P.O. Box 27106, New York, NY 10087. Our deepest sympathy to Dr. Elson and his family.

ASSOCIATE DENTIST

“Busy world-class fee-for-service general dentistry practice in Cincinnati - Dayton area seeking a motivated, highly-skilled, fun-loving Associate Dentist. Guaranteed salary negotiable with high income potential, 4 day work week with no weekends, and flexibility to do comprehensive dentistry on patients of all ages. This is not a start-up or chain practice. For consideration, please send resume with cover letter to jonellvoskuhl@yahoo.com”

Scarlet Oaks Free Dental Program Repeated in 2014

Once again, the Cincinnati Dental Society is working with the Scarlet Oaks’ evening dental assisting program. Patti Ramsey, instructor, is looking for volunteer dentists, hygienists and dental assistants to help provide free dental care in their clinic for their adult students. The exposure to hands-on dentistry that her students will receive is in lieu of shadowing in private offices. Dental screenings will begin the end of January and treatment beginning the first of February. For those interested, please contact Patti at 513-600-5725 or via email: ramseyp@greatoaks.com.
Cincinnati Dental Society Members

Donating Care? **Write it Up.**

Access to Dental Care Registration Form

This form has been designed to help dentists report dollar value of intentional free services given to patients who may be experiencing financial difficulty or are otherwise in need, and care NOT given through Medicaid, Dental OPTIONS, Give Kids A Smile, or our Roselawn Dental Center. If you open your office for any kind of free dental care event for the community or underserved, please use this form to report those donated values.

The ODA uses this information in advocacy and awareness efforts, demonstrating the commitment of Ohio dentists to give back to those in need. Information is reported collectively without the use of any names.

*Please fax this completed form to Vicki Nixon at 513-984-3047.* Monthly, Vicki will report this information to the ODA. If you have any questions, please contact the Cincinnati Dental Society Executive Office at 513-984-3222.

brux “C” crowns

Improving the esthetics of full zirconia restorations

Our full contour zirconia crowns are stained in the “green state” using our own custom formulas to accomplish a more esthetic full zirconia restoration.

• our brux “C” crown has a full infiltration of color - which eliminates bright spots during adjusting

• in-house mill for better quality control and consistency
