WHO EXAMINES YOUR INSURANCE COVERAGE?

Your patients trust you to make recommendations to keep them healthy. You can have that same confidence knowing that your local independent insurance agent representing The Cincinnati Insurance Company will suggest the right combination of coverages to protect the practice you’ve worked hard to build.

Find an independent agent representing The Cincinnati Insurance Company by visiting cinfin.com or by calling Mike Terrell, 800-769-0548.
January 8, 2016 Installation Speech

Good evening everyone. I want to thank you all for joining me and Emily this evening. I’m honored to be installed as the 2016 President of the Cincinnati Dental Society. This is a wonderful venue and a fine example of the new vibrancy of our great city.

Our dental society has existed in some form or fashion since 1844. I’m a big fan of history. I was a history major in college and in a quest to discover more about my family’s history, I learned that the Parker line settled in Cincinnati in the mid-1800’s. My grandfather’s grandfather, Luther Parker, rose to prominence as a local Pork Baron. His hard earned wealth led Luther to look for an investment opportunity that both he and his ancestors could long savor. Procter and Gamble were issuing stock at the time and the newly established Spring Grove Cemetery was offering burial plots in lots of 300. My presence here tonight should tell you which investment opportunity Grandpa Luther pursued. I gotta say we really do have a great spot at Spring Grove.

We would like to acknowledge our guests for the evening. My parents are here tonight, Mike Parker and Cheryl Craig. My mother-in-law Judy Dixon is here. My brother and sister-in-law Andy and Lydia Parker. My sister and brother-in-law Heidi and Chris Burdsall. By now most of you have met our children - Sam and Sofie. All fifteen members of our staff are here tonight. You ladies are fantastic and I’m honored that you are here tonight.

The Cincinnati Dental Society exists to serve both its member dentists and the Greater Cincinnati community. Our oral health foundation cares for children as well as adults. We place a special focus on our veteran population through the nationally recognized “Leave No Vet Behind” program. Having spent the past eight years involved in the society, I can say confidently that we, under the direction of Vicki and Sasha, do an incredible job providing dental education to our members and care to the underserved members of our community.

The Cincinnati Dental Society is comprised of 481 member dentists. Vicki Nixon serves as our executive director. The executive committee assembled here tonight is but one facet of the member leadership of the society. Nine member committees that include Finance, Membership, Constitution and Bylaws, Access to Dental Care, Honors, Nominating, Peer Review, Program, Strategic Planning, and Public and Professional Community Relations dive deeply into the issues affecting our society. The recommendations of those committees pass to our Governing Council where they receive a vote. The governing council is made up of 15 member dentists who meet six times a year to conduct the society’s business.

I ran through this organization summary for two reasons. One, it took me a long time to understand the structure. I recognize that from the outside it can be confusing and maybe even intimidating. The organizational committees, the Council, and the Executive Committee are all made up of member dentists volunteering their time to make the society function. And, while the structure may be a bit confusing, volunteer opportunities are abundant and open to all. The time commitment

MORE INSIGHT helps you make the most of your practice’s cash flow.

KNOW YOU HAVE A DEDICATED BANKER WHO UNDERSTANDS YOUR INDUSTRY AND YOUR NEEDS.
As a healthcare professional, you want to spend more time helping patients and less time worrying about your finances. With dedicated Healthcare Business Bankers, PNC provides tools and guidance to help you get more from your practice. The PNC Advantage for Healthcare Professionals helps dentists handle a range of cash flow challenges including insurance payments, equipment purchases, and managing receivables and payables. In such a fast-moving business, PNC understands how important it is to have a trusted advisor with deep industry knowledge, dedication and a lasting commitment.
Happy New Year!

If you are like many people you may have made a New Year’s Resolution, but why? According to Wikipedia, “A New Year’s resolution is a tradition, most common in the Western Hemisphere but also found in the Eastern Hemisphere, in which a person makes a promise to do an act of self-improvement or something slightly nice, such as opening doors for people beginning from New Year’s Day.” Why can’t we have a “new year’s resolution” everyday? Why don’t we do an act of self-improvement or something slightly nice for someone every day? I find new year’s resolution, for me anyway, do not last. So I try to live everyday treating people the way I want to be treated, sending a little note to a friend, saying “I am thinking about you” or cook dinner for a neighbor who has a brother dying at home. These nice gestures cannot wait until I make the “promise”. It is about now, not yesterday or tomorrow. So, as you can guess I DID NOT make a new year’s resolution, but I did make a commitment to remember that everyone has something going on in their life, so a small gesture as a smile or buying someone coffee may make their day just a little better. I know it makes mine!

So, 2015 was truly a busy year! We had many wonderful things take place, and yes, some very sad. Just because it’s a new year does not mean those we lost in 2015 will not be remembered. Yes, they will in many ways, so let’s embrace 2016 and make it the best we can!

Before moving into 2016, it would be remiss of me if I did not thank Dr. Schaeffer for a fun and productive year. I guess he enjoyed it also since he will be president again in 2018! We all know that the Society does not run without the dedicated members serving on Council and committees. They work very hard all year to develop ideas and programs that are of interest to our members. If you have ideas or suggestions just let me know and I will pass them along to the appropriate committee. And, who could forget Sasha. What a treat it is to have her working by my side. Her job is not always easy, but she keeps her smile and sweet voice on the phone regardless.

Now let’s move on! In this Bulletin there are highlights of our charitable programs and events. Don’t forget about our 2016 continuing education lecture series. The first lecture is just right around the corner with Dr. Tim Donley. And, yes, what about our “Dining and Dataistry” event. You should have received a fax and email on this event – it is February 8th! If not, call Sasha immediately and she will get you signed up!

Our oral health foundation began working with CincySmiles Foundation and the Su Casa Hispanic Community in providing free dental care to their adults. These adults have an annual family income at, or below, the 200% federal poverty guidelines and have no insurance, including Medicaid. Care is being provided at the CincySmiles Dental Center (formerly McMicken Dental Center) by their staff dentists or our volunteers. Our commitment to helping the Su Casa adults is possible through an anonymous donation we received in 2015. We are looking for volunteers to help at the dental center on Fridays and specialists, such as oral surgeons and periodontists in their private offices. Additional information is in this Bulletin, but if you have any questions, please give me a call!

Soon the Society will have its own face book page. Once it is up and running we will send an email to all members. Speaking of emails. Please let us know if your email changes. This is one of the ways we communicate with our members and it is required in order to log onto our website.

The Scarlet Oaks evening adult dental assisting program is seeking volunteers to provide free dental care to their adult students at their dental lab in Sharonville. This program was developed by the Cincinnati Dental Society several years ago and provides not only a much needed service for their adult students, but their dental assistant students with hands-on training. If anyone is interested in donating some time on a Wednesday evening, please contact either me or Patti Putteet at (513) 600-5725.

The membership directories will be ready soon. We appreciate your patience during this time. This project was larger than expected and since we are doing this in-house, we had to work around other projects.

Until next time....
Past President Mike’s Musings

Random Thoughts

1. Growing older is not growing up.
2. 80% of the people don’t care about your problems, and the other 20% are happy it happened to you and not them.
3. Most people are as happy as they make up their minds to be.
4. As I have matured, I have learned what I have to say isn’t nearly as important as what I should listen to.
5. Practice the Golden Rule. Do what you expect and want others to do.
6. Is it better to ask for forgiveness than permission?
7. It’s hard to lead a cavalry charge if you are not on the lead horse.
8. Leaders aren’t born, they are made just like anything else, through hard work.
9. We seem to be moving in the direction of a society where no one is responsible for what he himself did.
10. Life is 10% what happens to you and 90% how you respond (to it).
11. Every generation should pay their own debt, not burden their children, grandchildren.
12. Be part of the solution, not part of the problem.
13. Lack of planning on your part does not constitute an emergency on my part.
14. Change is difficult, but essential for survival.
15. Always strive to be wiser today than you were yesterday.
16. Those who never fail, have never tried.
17. Don’t be a helicopter parent, at sometime our children need to try, fail, and get back up on their own.
18. Excuses change nothing, they just try to make you feel better.

Last Random Thought
Please ask all your dentist friends to join us in the Cincinnati Dental Society and The Ohio Dental Political Action Committee.

Thanks for letting me be the President of our Cincinnati Dental Society for the past year. A thanks to all who have served on Councils and Committees. And a special thanks to Vicki and Sasha.
Call to Order:
The September Council meeting was held on Monday, September 14, 2015 at the CDS Executive Office. It was called to order by president, Dr. Mike Schaeffer, at 6:50 pm.

Roll Call:
Members Present: (Drs.) Brandt, Chopra, Dorr, Glogowski, Hanlon, Heck, Khetarpal, Murphy, Newby, Parker, Walter, and Wauligman.
Members Absent: Drs. Osterday, Pick, and Smith.

The June 1, 2015 Council meeting minutes were approved as written.

President’s Report by Dr. Michael Schaeffer:
The proposed Constitution and Bylaws amendments on pages 1, 8, and 15 were discussed. After some discussion, Dr. Schaeffer and Vicki will address two areas with Dave Owsiany and Nathan Delong (ODA) and report back to Council via email for final approval. The areas are as follows:
- Can the immediate past president serve as vice president?
- To transition from one treasurer to the next, how will this best be handled? For example, do we have co-treasurers, associate treasurer, etc. The decision may require an amendment to the Bylaws.

Once Council approves, Vicki will send an email to membership with the proposed amendments. The final approval/vote from membership will be at the next CDS Member Event in November.

Treasurer’s Report by Dr. Chris Heck:
Continuing education registration is down and membership income has been holding. There is a projected deficit of about $6,000 for 2015. There is a loss of income from not renting the library as planned. However, Nick Voynovich, with Midwest Payment Processing, began renting the "library space" as of September 1, 2015. Expenses were incurred by legal counsel with regard to the lease. As previously voted, the distribution of membership funds has been completed. Based on the Cincinnati Dental Society Financial Policy the balance in the reserve fund is at the required level/percentage.

Executive Director’s Report by Vicki Nixon:
A grant from Patterson Dental Foundation for $4,300 was received to cover part of Sasha’s salary. Sasha is arranging and scheduling volunteers at the school based dental centers.

Team Smile Day is September 25th, sponsored by Henry Schein. Close to 300 children will receive free dental care that day. Vicki and Sasha will represent the Society.

At the Bootsy Collins Foundation Gala Saturday, September 19th, held at the Montgomery Inn Boathouse, the Children’s Oral Health Network will receive one of four "Lovingkindness" awards. Dr. Walter will accept the award on behalf of COHN.

Thursday, November 19, 2015, from 6:15 to 7:00 pm, will hold the roundtable discussion of various topics at the Horseshoe Casino. Three of the six topics will be: How much is too much debt?, managing PPO’s, and retirement options. Attendees will pre-select three topics.

The “Emergency Medical Update Course” by Dr. Jimmie Harper will be held Wednesday, September 16, 2015 at the Embassy Suites in Blue Ash.
The membership directory update will take place the first quarter of 2016. Members profile pages taken directly from the membership database will be distributed to members in the fourth quarter of 2015. Members will be asked to review the information, make appropriate changes, and return to the Executive Office by the deadline given on the profile page. The review of the information is crucial to ensure office information is current/correct in the new membership directory.

About 80 Veterans were screened at the “Leave No Vet Behind” Program on Saturday 12th at the Crest Smile Shoppe. Suggestions for next year include having more assistants to assist with taking x-rays and sterilization as well as using disposable mirror and explorers.

The Columbus Dental Society, by the end of October, will have published a Radiology Manual for dental assistants to obtain their radiology certificate. The Society, as well as other Ohio components, will purchase the manuals directly from Columbus for our “Home Study” program.

In collaboration with the Junior League and Children’s Oral Health Network, the Society is planning a free pediatric seminar with Dr. Bobby Thikkurissy. The focus will be on the importance of first time dental check-ups by age one. Pediatric dentists and general dentists will be invited. The seminar will take place on December 3, 2015 at Cooper Creek in Blue Ash. Details are being planned and sponsors are needed.

There are still openings for the October 23, 2015 "Cincy Brew Tour".

*Nominating Committee Report by Dr. Wayne Wauligman*
Moved by Dr. Wauligman and seconded by Drs. Brandt and Schaeffer, a motion was made and passed unanimously to approve the attached 2015 Report of the Nominating Committee. Nominations will be accepted at our next CE course and the annual election will take place at the November 19, 2015 CDS Member Event.

**CDS’s Oral Health Foundation Update by Dr. Ken Brandt**
The Foundation Board is seeking nominations for the “Jack W. Gottschalk, DDS Notable Service Award” for 2016. Those nominating someone must write a letter of recommendation and address each of the criteria stated in the purpose of the award. It is not necessary the Board gives the award each year.

**CDS Committee Updates**

*Membership by Dr. Andrew Dorr*
The next Membership Committee Meeting is October 12. The Cincinnati Dental Society, for 2015, has a 98% membership retention rate. For a larger Society, this is excellent.

*Program Committee Update by Dr. Murphy*
Former member of the Program Committee Lauren Russell is now in Okinawa. Their next meeting is October 19. The committee is looking for at least two young members to join.

There is no unfinished business.

**New Business**
Discussion centered on whether or not to charge non-members for Peer Review service. Besides the Doctors’ time there are administrative staff duties. The recommendation to begin charging non-members must go through the ODA House. Discussions should begin with Chris Moore at the ODA. Dr. Manny Chopra and Dr. Ken Brandt offered to speak with Chris and bring back information to Council in November.

Dr. Wauligman provided information that medical codes are changed and have expanded effective October 1, 2015. This will be an issue for a small number of dental providers.

Dr. Schaeffer announced upcoming meetings and events before adjourning the meeting at 8:20 pm.
Call to Order:
The November Council meeting was held on Monday, November 2, 2015 at the CDS Executive office. President, Dr. Mike Schaeffer called the meeting to order at 6:50 pm.

Roll Call:
Members Present: (Drs.) Brandt, Chopra, Dorr, Glogowski, Heck, Khetarpal, Murphy, Newby, Parker, Peck, Perrino, Schaeffer, and Wauligman.
Members Absent: (Drs.) Hanlon, Osterday, and Smith.

The September 14, 2015 Council meeting minutes were approved as written.

Council noted the passing of current Council member and former CDS president Dr. Patty Walter, and former CDS and ODA president Dr. J. Richard McFarland.

President’s Report:
- Council received a letter from Dr. Joe Crowley thanking Council and the Cincinnati Dental Society for the contribution to his campaign for ADA president.
- There is a call for nominations to the Ohio State Dental Board. Dr. Tom Perrino is a nominee. However, the governor has not appointed anyone yet as he is currently involved with his presidential campaign. The OSDB has a new director, Mr. Harry Kamdar.
- A motion made to approve the new CDS Associate Treasurer Policy was passed unanimously. The purpose of the position is to act as a means of transitioning into the Treasurer position. The policy is written into the manual, not the Bylaws.
- Dr. Schaeffer introduced Dr. Tom Perrino as the nominee for the Immediate Past President position in 2016. Dr. Schaeffer will become Vice President and vacate the Immediate Past President position.

Treasurer’s Report: Dr. Chris Heck presented a review of the CDS financial statements including liabilities and assets as well as a proposed 2016 budget. Estimated 2015 yearend balance is between ($6,000) and ($10,000) in deficit. The 2016 budget was unanimously approved by Council.

Nominating Committee Report by Dr. Wayne Wauligman:
Changes were necessary to the September report of the Nominating Committee due to the passing of Dr. Patty Walter:
Nominees for 2016 are: President: Dr. Matthew Parker; President-elect: Dr. Manny Chopra; Vice President: Dr. Michael Schaeffer; Secretary: Dr. Wayne Wauligman, Treasurer: Dr. Chris Heck; Immediate Past President: Dr. Thomas Perrino.
Dr. Mary Ann Hanlon will fill the one-year unexpired Council term of Dr. Patty Walter. Dr. Linda Smith will fill Dr. Walter's unexpired one-year term on the Finance Committee.
Council members nominated for a three-year term are: Dr. Veronica Glogowski, Dr. Daniel Kelley, Dr. Ruchika Khetarpal, Dr. Monica Newby, and Dr. Whitney Wauligman.

CDS Oral Health Foundation Update by Dr. Ken Brandt:
- At their recent meeting, the Foundation approved Dr. Patty Walter to posthumously receive the "Jack W. Gottschalk DDS Notable Service Award" for 2016.
- Foundation Board member Mike Terrill proposed that the CDS golf outing be named the Patty Walter Memorial Golf Tournament.
- Vicki Nixon reported that due to the Affordable Care Act and expansion of Medicaid, it is more difficult to find and schedule non-insured children at Oyler School for members to provide donated care. Nine percent of children at Oyler School are dentally uninsured and the Cincinnati Board of Health is absorbing their care for now.
- October 25th volunteers screened 67 adult patients, 17 of the 67 received a cleaning at the Su Casa Mini-Health Fair. CDS Foundation, working in conjunction of CincySmiles Foundation, will prioritize their care two days a month at the new location.

Continued on Page 10
The idea of the Children’s Oral Health Network was to serve as a hub with the spokes being the different organizations of need. Centralized organization is needed.

Vicki Nixon reported that the "Leave No Vet Behind Program" saw 105 veterans September 12th. Forty percent of them need prosthetics. Funds are available for the lab fees as well as some reimbursement of the actual treatment fees.

The "Fall Feast" screening will again be on Thanksgiving Day from 9 am to 1 pm at the Cincinnati Convention Center.

Dr. Rebecca Hayden will again organize the Lighthouse School Project.

CDS Committee Updates:

- **Membership Committee** - Dr. Andrew Dorr reported CDS had, for 2015, a 97.6% membership retention rate. We are 9th out of 25 societies, and first of the big three component societies.

- **ODA and CDS Peer Review Committees** - Dr. Steve Pick further discussed the issue of charging non-member dentists for the peer review process. It could be called an administrative fee. It takes much time for Vicki to triage the calls and handle the paperwork as well as the time of the dentists involved. Dr. Pick reported that in the past the ODA Sub-council on Peer Review voted against charging non-members. The Sub-council recommended it be a public benefit. After discussion there was a consensus among Council members to go forward with a resolution to be presented at the annual ODA meeting to charge non-member dentists a fee for peer review services.

ODA Updates:

- **ODA Membership Council** – Dr. Ruchika Khetarpal discussed the following:
  - ODA President and Immediate Past President were at the ODA Membership Meeting. They discussed a rise in membership from large group practices. These groups are becoming more interested, particularly, in our advocacy in current insurance issues.
  - Dr. Paumier recommended a retired member be an ambassador for new members. CDS has an active RODEO group (Retired Old Dentists Eating Out) that could take a new member out for lunch for example.
  - It was suggested for there to be awards for large and small component societies for best membership recruitment and best retention of members. This could occur at the annual leadership conference in Columbus.
  - ADA members now benefit with a 2.5% reduction in their loan interest rates. The catch is they must set up a checking account through the DRV Bank.
  - Further discussion for increasing membership suggested a dental student welcome program sponsored by the ODA, faculty engagement promoting the ODA at a luncheon, and encouraging large group practices to promote joining organized dentistry for their advocacy issues.

- **ODA Access to Dental Care Council** - Dr. Veronica Glogowski reports that the ODA cares about the number of patients and amounts of donated dental care. The form, "Donating Care? Write it Up!", developed by the CDS should be used to report donated care to the ODA to help with dental advocacy issues. CincySmiles Foundation inherited the entire state of Ohio and they are having a temporary computer issue linking DENTAL Options patients with DENTAL Option dentists. Dr. Glogowski will contact Nancy Carter to determine how EFDA’s are utilized in the City of Cincinnati Health Centers. The Council is gathering information on this issue.

- **ODA Council on Dental Care Programs and Dental Practice** - Dr. Manny Chopra, chair, reported the following:
  - The Ohio State Dental Board has audited 600 dentists so far for proof of continuing education minimums. The new OSDB Director, Harry Kamdar, replaces Lili Reitz. There are three dentist openings on the Board.
  - ODA lobbyist Darrell Dever passed away in August.
  - The Ohio Hygienist Association now supports midlevel provider legislation along with The Kellogg Foundation and UHCAN Ohio. An Ohio legislator is strongly considering introducing such legislation.
  - There was an increase of Medicaid reimbursement to dentists of 1% and 5% in certain rural areas.
  - House Bill 95, prohibiting insurance companies from setting fees for services they don’t cover, passed the House of Representatives.

Continued on Page 11
The Ohio State Dental Board has audited 600 dentists so far for proof of continuing education minimums. The new OSDB Director, Harry Kamdar, replaces Lili Reitz. There are three dentist openings on the Board.

ODA lobbyist Darrell Dever passed away in August.

The Ohio Hygienist Association now supports midlevel provider legislation along with The Kellogg Foundation and UHCAN Ohio. An Ohio legislator is strongly considering introducing such legislation.

There was an increase of Medicaid reimbursement to dentists of 1% and 5% in certain rural areas.

House Bill 95, prohibiting insurance companies from setting fees for services they don’t cover, passed the House of Representatives.

Senate Bill 33 proposes to require cultural competency in all State Board continuing education requirements.

The ADA “Aptify” software should start June 14, 2016. This is a new software for organized dentistry.

Announcements:
- The “Get to Know the CDS” event is on November 19th at the Horseshoe Casino.
- The December Council Meeting is December 7.
- The Honors’ Night and Installation Dinner is at the 21c Museum Hotel on January 8, 2016.

The meeting adjourned at 9:05 pm.

President’s Message

can easily be folded into everyone’s busy life. Committees meet twice a year. Council meets every other month and take the summer off. Patient care volunteerism can be tailored to meet the availability of your dental team.

I’m excited to serve as President at a time when so many shall we say “less seasoned” dentists are getting involved in the future of organized dentistry. In addition to folks like Manny Chopra, Chris Heck, and Ruchika Khetarpal, the 2015 ODA Rising Star recipient, we have the likes of Drs. Dan Kelley and Becky Hayden leading on critical issues like membership and access to care at both the local and state levels.

Over the next 12 months, I want to shine a light on all the great things we do for this community and our member dentists. We should be proud of our efforts and not shy away from the limelight. I also want to build a sustainable pipeline between the society and the areas’ dental schools. Specifically, I want to connect with dental students who grew up in Cincinnati and create a mentoring network while they are in school.

I would challenge all of our members to help us grow the membership pie. We represent almost 72% of the licensed dentists in Greater Cincinnati. A similar percentage is represented by the Ohio Dental Association. We have a collective business interest in remaining a strong organization. If you don’t believe me, please take a look at the state of our physician friends.

Our voice is strongest when we speak in unison. The legislators at the statehouse must remain our allies if we want to stay a step ahead of the insurance interests and the public policy groups who think they know best how to deliver quality, patient-focused dental care. Please know that I will do all I can to keep dentists in control of dentistry.

Before I rap up, I want to say a few words about some of the people who have guided, supported, and mentored me. For the past eight years, I’ve gained invaluable insight in clinical practice and practice management from Dr. Scott Silverstein.

My involvement in the CDS officially started in 2007 when Emily and I returned to town. Over lunches at the Mt. Carmel La Rosa’s, I was nudged into getting involved by Drs. John Gennantonio, Steve Kuennemeier, and of course, Mike Schaeffer. Over these past nine years, I’ve come to really respect the dedication of so many of you.... none more so than Patty Walter. That woman walked in a league all her own.

Finally, I’m often asked how do I juggle my many responsibilities. I do it with the help of Emily who does a really good job of keeping me grounded. Her West side sensibilities and unwavering support help me keep all things in perspective.

You know Grandpa Luther lived a long life. Near the end of his life, he found himself staying in a hotel in Berea, Kentucky. It seems Luther was absent minded or as I prefer laser-focused- a trait that I seemed to have inherited. You see Luther mistook the empty elevator shaft for the third floor lavatory. We know this because Luther gave a local reporter a full accounting of the event before being carted off to the hospital. As I said the man had a laser focus. I can say with confidence that Emily Parker has kept me out of the elevator shaft for the past 15 years. And for that I say thank you Emily.

And thank’s to all of you. I hope you enjoy the rest of your evening here at 21c. Check out the museum. Be safe. Go Bengals!
JOIN SDC’S NETWORK
And Get Back to What Matters Most!

Superior Dental Care (SDC) makes participation easy with more patients in your chairs, efficient claims processing, and quick payments. Cincinnati Dental Society  
March CDS Member Event  
featuring  
Alan R. Weinstein, D.D.S.  
March 14, 2016  

Sponsored in part by:  First Financial Bank and  
Stock Yards Bank & Trust  

“A Conservative Esthetic Restorative Update: How to Thrive  
During Economic Uncertainty”

Course Description:
Tough economic times require a smart, positive, proactive practice approach. Conservative alternative  
and multiple choice treatment options may be necessary. With the bewildering array of new products  
and techniques continually being introduced into the marketplace, it is difficult to know how to choose the  
right method or material to solve a given restorative or esthetic problem. This one hour lecture provides  
an evidenced-based restorative dentistry material and technique update, as well as a rationale for  
choosing the proper conservative procedures to not only assure clinical success, but to thrive during the  
challenge of this economic and insurance driven change:

*Bleaching, Bonding or Veneering…how, when, where..? * Resin, Porcelain, or Porcelain to Gold?  
* Cements and Posts…Which cement where? * Universal Adhesive Systems…and Micro-Matrix  
Materials…which, when, how? * State of the art cordless impression techniques * A rationale for  
practice growth during challenging economic times*

This evidence-based lecture provides the low-down on some high tech methods and modalities to  
hopefully separate fact from fiction, hype, and hyperbole in a difficult economy.

Speaker:  
CDS member, Dr. Alan R. Weinstein is a graduate of the University of North Carolina at Chapel Hill,  
School of Dentistry. He has faculty affiliation with the Cincinnati Children’s Hospital Medical Center  
where he has taught operative and esthetic dentistry for over twenty- five years. Dr. Weinstein serves as  
a consultant with various manufacturers of dental materials, and has contributed articles to several dental  
journals including the Journal of the American Dental Association, Dental Clinics of North America,  
Dental Economics and Dental Products Report. He has lectured internationally on enamel bonding,  
conservative restorative techniques, and integrative dental medicine. He maintains a private practice in  
Cincinnati, Ohio, which emphasizes conservative aesthetic and preventative restorative dentistry.

Additional Information and Registration Form  
on Reverse Side of Flyer!
Additional Information

Date: Monday, March 14, 2016
CE Credits: One (1) Hour

Schedule: 6:15 to 7:15 pm - Heavy Appetizers and Cash Bar
7:15 to 8:15 pm - Program

Location: Eddie Merlot’s, 10808 Montgomery Road, 513-489-1212

Cost: CDS Members - As part of your membership dues, this event is complimentary for all CDS Members

Guests and/or Staff of CDS Members is $30 each.

REGISTRATION FORM for MARCH 14, 2016

Schedule: 8:00 a.m. Registration ** 8:30 a.m. Program
Sponsored in: Cincinnati Insurance Co., First Financial Bank, GlaxoSmithKline, P & G, and Stock Yards Bank &
Part by: Trust Company.
Staff Invited: Dental Hygienists, Dental Assistants and Administrative Personnel of registered dentists.
CE Credits: 6.5 CE Credits

About the Program:
Morning Session: Every day a significant number of patients walk into dental offices with legitimate periodontal needs. There are now, more than ever, compelling reasons to address these needs. Successful periodontal therapy depends on successful debridement.

This course presents evidence-based protocols to maximize chances for resolving patients’ periodontal disease. From mechanical debridement to local antibiotic therapy to laser debridement, the emphasis is on what, when, and how. The course takes a “learn it today – use it tomorrow” approach. Attendees leave with a clear understanding and an evidence-based game plan to implement improved periodontal debridement strategies immediately upon returning to the office.

Afternoon Session: Finally, a comprehensive course on Periodontics that puts it all together in a way that makes sense! This course is perfect for doctors and hygienists who want to use the new periodontics for better patient outcomes and better practice incomes. This course is supplemented with practice management materials that can be immediately used when you return to the office.

Significant numbers of patients are walking into our offices everyday with legitimate periodontal treatment needs. There are now more than ever compelling reasons to address these needs. We have the technologies and abilities to address these needs better than ever before.
The success of the periodontal portion of your practice is going to depend on your ability to identify/motivate patients in need of care, and then to use a therapeutic approach that gives the maximum chance to achieve and then maintain a preferred level of oral health. This course will show you how to do both.

You will leave with the knowledge and materials necessary to use the new periodontics to benefit your patients and your practice.

About the Speaker: Timothy Donley, D.D.S., MSD, is currently in the private practice of Periodontics and Implantology in Bowling Green, KY. After graduating from the University of Notre Dame, Georgetown University School of Dentistry, and completing a general practice residency, he practiced general dentistry. He then returned to Indiana University where he received his Master’s Degree in Periodontics. He then returned to Indiana University where he received his Master’s Degree in Periodontics. He then returned to Indiana University where he received his Master’s Degree in Periodontics. He then returned to Indiana University where he received his Master’s Degree in Periodontics. Dr. Donley is the former editor of the Journal of the Kentucky Dental Association and is an adjunct professor of Periodontics at Western Kentucky University. He is a lecturer with the ADA Seminar Series. Dentistry Today recently listed him among its Leaders in Continuing Education. He lectures and publishes frequently on topics of interest to clinical dentists and hygienists.

MARCH

Meetings
March 7: Access to Dental Care Committee meeting at 6:30 pm at the Executive Office.
March 21: Honors Committee meeting at 6:30 pm at the Executive Office.

CDS Member Event
March 14: “A Conservative Esthetic Restorative Update: How to Thrive During Economic Uncertainty” by Alan R. Weinstein, D.D.S. To be held at Eddie Merlot’s.
Additional information on pages 15 & 16.

Continuing Education
March 11: “How Digital CAD/CAM Technology and Same Day Dentistry is Changing the Way You Practice” & Complications and Frustrations with Implant Dentistry” by Curtis Jansen, D.D.S.
Location: Sharonville Convention Center, 11355 Chester Road, 513-771-7744
Schedule: 8:00 a.m. Registration ** 8:30 a.m. Program
Sponsored by: Henry Schein Dental
Staff Invited: Dental Hygienists, Dental Assistants and Administrative Personnel of registered dentists.
CE Credits: 6.5 CE Credits

About the Program: Morning: Today dental practitioners and laboratory personnel are relaying more and more on CAD/CAM and digital technology. Patient treatment procedures and philosophies are constantly evolving for both the benefit of the patient and clinician. Research has shown technological advancement can allow dentists to combine the placement of the dental implant, abutment, and restoration into a single surgery. IFL (immediate functional loading) or IOL (immediate occlusal loading) procedures are accelerated 1-state procedures that involve placing the implant, abutment, and functional crown within 48 hours of dental implant placement, reducing the time typically associated with a dental implant treatment. Patients today can have a single implant and restoration and or 4-6 implants to replace an entire arch of teeth in the same day.

Course Objectives- Morning
At the conclusion of the course, the participant will have learned:

1. A systematic approach on when to consider CAD/CAM implants, abutments, and restorations.
2. Clinical and laboratory steps on incorporating intraoral digital scanning on a surgical and restorative practice.
3. Interdisciplinary approach to treatment planning immediately placed implants with provisional's. From single tooth to the complete arch, treatment flow will be reviewed.
4. Guided surgery, can it benefit your practice?

Afternoon: For many practitioners, the excitement and thrill of implant dentistry has waned off and it is just another means of treatment. A key factor in treating the implant patient requires identification of potential problems that may arise whether during treatment or after several years of restorative function. This unique program not only addresses complications which may arise and their management, but more importantly how future complications can be avoided.
Course Objectives- Afternoon

At the conclusion of the course, the participant will have learned:

1. Triaging implant complications.
2. How to diagnose and treat loose screws.
3. Treatment planning and its importance in avoiding complications.
4. Implant mapping procedures.
5. Failing implants and their consequences.

About the Speaker:
Dr. Jansen completed his DDS and his Prosthodontic education at USC School of Dentistry. Dr. Jansen is a member of the American College of Prosthodontics and a Fellow of the American College of Dentists. Currently, he has a full-time practice limited to Prosthodontics and a dental laboratory in Monterey, California.

HELP is here for your difficult patients using IV SEDATION

We want to work in tandem with your preventative care to create healthy smiles for your difficult patients. We welcome your professional referrals with your patients that:

- Are fearful
- Are physically and/or mentally challenged
- Have a bad gag reflex
- Have high anxiety
- Do not respond well to local anesthesia
- Require general anesthesia with a certified anesthesiologist

Our 35+ years of IV sedation experience allow us to confidently support your regular care, only when you need it.

Our team can provide general dentistry, simple restorative dentistry, as well as more extensive reconstruction, periodontal care and extractions, all under IV sedation, helping you care for your difficult patients!

Call us today for more information!
We want to help YOU

Helping dentists buy & sell practices for over 46 years
The Cincinnati Dental Society's Oral Health Foundation, through our generous volunteers, has been providing free dental care to underserved children, ages 3 to 18, of families with income, at or below the 200% federal poverty guidelines and have no insurance, including Medicaid. Care was being provided at the Delta Dental Center at Oyler School and/or Deaconess Health Check at Western Hills/Dater High School. Due to several reasons, our involvement at the school based dental centers has come to an end, at least for now. We will, at times, be called upon to help with specialty care and will be reaching out to pediatric dentists, orthodontists, endodontists and oral surgeons to ask for their help as we have these past 3 years. Although this does not happen often, it is still a need.

In October of 2015 we began providing free dental care to adults of the Su Casa Hispanic Community. For 2016, care is being provided at the CincySmiles Dental Center (formally the McMicken Dental Center) by their staff dentists or our volunteers. Our Foundation is funding this program through an anonymous donation. As with the children we serve, we will be called upon to help with specialty care for these adults. We are asking for volunteers we can call when this need arises. If you are interested in being part of our "specialist panel" we would greatly appreciate you returning this letter to Vicki Nixon by March 1, 2016.

I, ________________________________, am a ________________________________
(Print Name)  (Print Specialty)

I am interested in being part of the "specialist panel". I understand I may be called when a need arises either with the children or the adults of the Su Casa community. I have read and understand the reimbursement options below:

Reimbursement Options:
Fee Schedule for Care Provided in Private Offices of Dentists and Specialists, two (2) options exit.
1. Total Volunteer Dentistry (No reimbursement requested.)
2. Reimburse up to 50% of his/her actual fee.

IV Sedation Fee, three (3) options exit.
1. Total Volunteer Dentistry (No reimbursement requested.)
2. Reimburse up to 50% of actual fee.
3. Reimburse up to 100% of actual fee.

Dental Lab Fees - 100% covered.

When a need arises I prefer that you contact ________________________________
at ________________________________ to discuss the child or adult's needs.

_________________________ Signature ___________________________ Date
What we did in 2015

The Cincinnati Dental Society was blessed with another wonderful year thanks to our members. We have the best volunteers. We say that all the time, but it is true. Our volunteers never take a break. They always want to help. It is almost like we can’t give them enough. Impact from year to year grows in some fashion or another. In 2015, we continued to provide free dental care to the underserved in the Greater Cincinnati area through the Delta Dental Center at Oyler School, Deaconess Health Check at Western Hills/Dater High School, Lighthouse Youth Services, Fall Feast, and our “Leave No Vet Behind” Program. But that’s not it!! We added a program...The Su Casa Adult Dental Program.

But don’t forget about the privately donated care through the “Donating Care? Write it Up” program. When the numbers from all of our programs were finalized, they tallied $208,706.00 in donated dental care in 2015! We cannot forget about all those who donated to our causes, fundraisers, and grants that help support these programs. Thank you!

Access to Dental

“Leave No Vet Behind” - $108,115.00

In 2015 we were thankful to hold our screening of 110 Veterans at the Crest Smile Shoppe, and care was, and still, being rendered in private offices. To date, 156 extractions, 67 restorations, 9 cleanings, 100 x-rays, 91 additional exams, over 35 variations of removable prosthetics, as well as root canals and extensive perio treatments. Some Veterans’ are still in the process of treatment so these numbers are still on the rise. A special thanks to Butch Stenger and Henry Schein Dental for their support. Total care rendered since the beginning of the program is over $713,000.00.

A note of gratitude…

“Hello my name is Keith Viars (Navy). I enrolled in the “Leave No Vet Behind” program on September 12, 2015. This is the second year I have had to use the Cincinnati Dental Program and, I have to say everyone involved from volunteers to the professionals were some of the nicest people I ever have come across in the dental care industry of my life. My first dentist was Dr. Grady Gibson, then Dr. Donald Davies, and then Dr. Walter Gay. Everyone, including staff members, went over and beyond anyone could imagine for free services for dental care. I want to thank them because without everyone’s help I would probably be in dentures soon or serious pain.”
2015 CDS Access to Dental Care Volunteers!

Care Programs

“Donating Care? Write it Up“ - $65,559.00

This program shows just how much dentists care about their profession, community, and seeing the world smile! There are thousands of care donated in private offices each year, outside of our programs. We report this information to the Ohio Dental Association, which helps them illustrate to legislators that our dentists contribute to the access to dental care issues.

2015 DCWU Participants: (Drs.) Jonathon Conover, Andrew Dorr, Sea of Smiles (John Gennantonio, Sarah Husted, and Kathryn Stewart), Laura Goodell, and Betsy Mueller. If you donate care in your office, please do not forget to complete the “Donating Care? Write it Up” form and send to our office.

Fall Feast - $12,728.00

This year was the biggest year for the Health Expo at Fall Feast! One hundred and forty-eight people received a limited oral evaluation, oral hygiene instruction, and goodie bags. We were able to bring in 3 chairs again and with the number of volunteers, we were able to see people in a timelier fashion. Volunteers for the day included (Drs.) Manny Chopra, Veronica Glogowski, Matt Parker, Steve Pick, Allison Powers, Robert Reineck, as well as Sasha Cantrell, Elizabeth Chopra, Matthew Chopra, Priya Chopra, Vicki Nixon, Emily Parker, Sam Parker, Sofie Parker, Matt Powers, Jill Reineck, and Nick Voynovich with Midwest Payment Processing.
What we did in 2015 (Access to Dental Care Programs) continued

**Lighthouse Youth Services**
Dr. Becky Hayden was joined by Dr. Larry Kluener and his wife, Trish on February 12th to conduct work stations for the high school students at Lighthouse Community School. In addition, Dr. Hayden visits the school several times a year to screen the students. She works with Crest Smile Shoppe for further dental care. 2015 marked our third year on working with the Lighthouse Youth Services!

**Su Casa Adult Care Program**
Beginning in October of 2015 we began working with the CincySmiles Foundation and Su Casa Hispanic Community on a new program, which will provide much needed dental care to an underserved population. This program will continue in 2016. We are looking for general dentists to volunteer at the CincySmiles Dental Center (formerly McMicken Dental Center) and specialists who can take adults in their private office for oral surgery and perio treatment. To date, we have provided over $8,500.00 in discounted care.
Note: Our time has come to an end, at least for now, at our school based dental centers. The main reason is because there are fewer number of non-insured children. At this time, the Cincinnati Health Department is seeing all patients at their dental centers, regardless of ability to pay. In the near future, we may be asked to help once again, but for now we are focusing on our “Leave No Vet Behind” and Su Casa Adult Dental Programs.

**Delta Dental Center at Oyler School- $35,453.00**

Twenty-six new patients were seen and there were over 83 encounters. Needed care such as oral exams, oral hygiene instruction, cleanings, restorations, stainless steel crowns, and simple extractions were performed for non-insured patients.

**Deaconess Health Check at Western Hills Dater High- $38,691.00**

We were thankful for the opportunity to be at Deaconess Health Check. The older population (7th-12th grades) needed much more restorative work done than at the Delta Dental Center. Our volunteers made the most of every day that we volunteered and did amazing work throughout the year!
You work hard every day to provide attention and care to each of your patients. You deserve the same personal attention when it comes to your financial success—for your practice and yourself. First Financial understands the unique needs of dental professionals and works hard to not only provide superior client service, but exceed your expectations. LEFT TO RIGHT: Robert C. Scroggins, JD, CPA, CHBC; Luke R. Trenz, CPA; Paul R. Trenz, MS-Tax, CPA, CHBC; Mark D. Scroggins, MSBA, CPA, CHBC
Each year, I try to push myself to be an even better version of myself. Life isn’t always easy here in the Executive Office. Some days we laugh, some days we cry, some days we just want to give up. But we don’t! We come back each day and push to make it better. We come back because we know we are needed, no matter what happened the day before.

So, on January 1st, I decided to push myself like I never have before. I guess you may call it a New Year’s Resolution. I signed up to “Run The Year”…. meaning within the year of 2016, I am going to run or walk 2,016 miles. I figured, “Hey I love running! It keeps me balanced. Focused. On path. Why not?” So, why not?

As each year we change, as does our President.

2015 brought us the caring, funny, compassionate, “teddy bear” president of Dr. Michael T. Schaeffer. You can always tell when he is around because Dr. Schaeffer has this wonderful laugh and presence that makes you happy to be where you are. He is always willing to help out with a veteran, or volunteering at the schools. He is passionate about his community, organized dentistry, and teaching something to the incoming class.

These are just a few things you want in a President.

Thankfully, we have just that for 2016. Dr. Matthew M. Parker is everything you want in a President and then some. He brings a wonderful and caring family. A supportive staff. A fresh outlook.

I want to go back to something said in the September 1960 Bulletin by a Past President we all know and love, Dr. H. Fred Lee. “To you older members of the society who have elevated the profession to its present high level, on a plane equal to any profession in modern civilization we doff our hats in respect and homage. To you young men, we offer the challenge of preparing yourselves to keep the present high standards and to maintain a constant advance of the profession you have chosen and worked so hard to attain.”

In Dr. Parker’s installation speech, you learned of his love of history. You also realize that the young men and women or “less seasoned” dentists are now getting heavily involved and excited for, and about, organized dentistry.

That is something we need. You need Dentists of all seasons’ to be involved to make sure your profession stays at the top of the charts. We are thrilled to have Dr. Parker take on this challenge. I personally cannot wait to see how his enthusiasm for dentistry grows that of those around him.

To keep up with the growing number of Dentists and staff, we are working on getting the Cincinnati Dental Society’s Facebook page up and running. In addition to our website (www.cincinnatidental.org) the information will also be posted to Facebook. Dentists, spouses, and staff members go and “Like” the page. We hope to be an awesome reference for members AND the community with this addition. We have been consumed in the Membership Directory update, so our new page isn’t complete, but it is there and you can find it at www.facebook.com/CincinnatiDentalSociety/

Like Dr. Parker said, “Times are changing”.
Members Ring In!

Dr. Shalini Gupta welcomed a beautiful baby girl into the world on July 14th, 2015. Aishani Radha Gupta was a ‘tiny little nugget weighing in at 5 lbs 13 oz.’ Dr. Gupta says that motherhood is exhilarating, exhausting, humbling, and the absolute best job in the world!

Congratulations, Dr. Gupta and welcome to parenthood!

Dr. Christopher Heck and fiancé Danielle welcomed a beautiful little girl into the world on December 17th at 12:39 pm. Nora Grace Heck weighed in at 7 lbs, 10 oz. She already has her parents wrapped around her little finger.

James “Rowan” Goodell arrived December 18th at 12:01 pm, weighing in at 6 lbs, 4 oz. Little Rowan was 20 inches long and is doing fantastic! Proud parents, Dr. Laura Goodell and husband John, are in love with their newest addition.

Montgomery Dental Sleep Medicine

Only partially retired! I sold my dental practice to Dr. Allen Smith. He will continue to care for my patients. I will continue to provide services to your patients in need of relief from TMD complaints and/or sleep disordered breathing/OSA problems, in adjacent office space to my original dental practice on Montgomery Road. I have developed significant relationships and experience with several Cincinnati Board-Certified Sleep Physicians and am working closely with on the majority of their patients. I invite you to call my office at (513) 984-8282 to schedule a lunch or phone consult with me, so that I may provide you more details of current Sleep Therapy Options, or help with answers to questions concerning one of your patients. Sincerely, Thomas S. Bosma, D.D.S.

I am a general dentist in the Cincinnati-Dayton area who limited my practice to doing endodontics only for the last 20 plus years. I’ve done thousands of endos in that time period. I’ve put together a plan where I do your endodontics at your office. This contract sets up a win-win-win situation for all of us.

Your patients win because they receive high quality endo treatment in a timely fashion at your office where they are comfortable. You win because you get a percentage of the endo fee that you normally would not receive if you referred your patients out. I win because I get to make a living doing something I love to do—endo!

If this sounds like a service you would like to offer your patients and you are tired of sending your endodontic income out the door, give me a call. You patients will thank you.

Contact Dr. L. Michael Miller at (513) 932-3353 or endo.mike58@gmail.com
51st Annual Past President’s Dinner

We had an amazing turn out, but some familiar faces were missing. Laughs were shared with good friends, and timeless tales were told. Clovernook Country Club was full of wisdom and gratitude that night. In attendance were: (Drs.) John Bennet, Jr., Bill Black, Ken Brandt, Manny Chopra, Roger Clark, Roger Clark, Bert Jacob, Larry Kluener, Mark Logeman, Matt Parker, Tom Perrino, Tim Pohlman, Mike Schaeffer, Tom Scheer, Robert Shively, Dale Siemer, Wayne Wauligman, Ralph Wyand, and Mary Ellen Wynn.

A Joint Effort!

Our first collaborative continuing education lecture was a great success! Joining efforts, the CDS’s Oral Health Foundation, Children’s Oral Health Network, and Junior League of Cincinnati, developed a lecture on “The Definitive Health Win-Win-Win: Early Childhood Dental Care” with speaker Dr. S. Thikkurissy, also known as “Dr. Bobby”. He is the Professor and Director of the Advanced Education Program in Pediatric Dentistry at Cincinnati Children’s Hospital. It was held at Cooper Creek in Blue Ash.

“Get to Know the Cincinnati Dental Society”

Round table discussions were the format for this annual event, which took place at the Horseshoe Casino on November 19, 2015. Topics included:

3. Piecing together the PPO plan puzzle” by Christopher Moore, ODA
4. How much is too much debt? By Krista Porter and Barry Lampley, First Financial Bank
5. How Do You Know You’re Winning if You Don’t Know the Score! By Jim Kokenge/Managing Partner with TWOHEADS Partners, LLC
6. Unleash the Full Power of Your Retirement Plan by Jeffrey Adler, Morgan Stanley

Those in attendance said they enjoyed this “change of pace” in a lecture and loved the venue. We are working on our next “Get to Know the CDS” for 2016!
Oral Pathology: Helping You Guard Your Galaxy
May 20, 2016

American Academy of Oral & Maxillofacial Pathology
and
Cincinnati Dental Society

Join us for a rare opportunity to learn from some of the world’s leading Oral & Maxillofacial Pathologists right here in Cincinnati!

Dr. John Kalmar Will provide an update on the diagnosis and management of oral ulcers and blisters, from common canker sores to viral disease to immune-mediated disorders.

Dr. Mark Lingen Will provide an update on oral precancer and cancer, including the emerging role of HPV and the plethora of oral cancer screening and diagnostic devices introduced to the profession in recent years.

Dr. Brad Neville Will provide a review of the features of a variety of common and uncommon radiographic lesions of the jaws that can produce a calcified or partially calcified appearance.

Dr. Steven Vincent Will present a variety of bone and soft tissue lesions in a case discussion format that simulates actual patient encounters in the dental office.

Our full contour zirconia crowns are stained in the “green state” using our own custom formulas to accomplish a more esthetic full zirconia restoration.

- our brux “C” crown has a full infiltration of color - which eliminates bright spots during adjusting
- in-house mill for better quality control and consistency
