**“Anterior Esthetic Techniques & Materials” and
“Mastering Anterior Implant Esthetics” - 6.5 CE
Hours**

Lee Ann Brady, D.M.D.

(Dental Hygienists, Dental Assistants & Administrative Personnel of registered dentists for this course are invited to attend if space permits. See tuition charge on registration form.)

First Course Description

Accomplishing exquisite anterior restorative results is a combination of preparation technique and materials selections. This program will present an approach to plan margin placement and tooth reduction to accomplish the proposed tooth position, contour and color of the new restoration as well as assuring functional success. It is challenging to select from one of the many choices of esthetic restorative materials that are available. We will discuss the esthetic and functional parameters of each material to facilitate appropriate material selection. An efficient and effective process for streamlining tooth preparation will be presented.

Learning Objectives

1. Anterior full coverage preparation design
2. Anterior partial coverage preparation design
3. Preparation planning
4. Anterior materials
5. Retraction and impression
6. Provisionalization
7. Bonding and cementation

Second Course Description

Although implant dentistry is considered one of the most predictable treatments we offer, guaranteeing optimal anterior implant esthetics is tricky and often feels challenging to create predictably. This program will look at the steps in differentiating high risk versus low risk anterior implant cases when it comes to final esthetics. We will also look at how to optimize the esthetic outcomes starting with pre-surgical augmentation, fixture position and advanced implant prosthetics techniques to make success predictable.

Continued on next page

Learning Objectives

1. Anterior Implant Treatment Planning, Surgical and Prosthetic
2. Creating the Optimal Anterior Implant site
3. Surgical Management for Optimal Esthetics
4. Advanced Implant Prosthetic Techniques
5. Fabricating Custom Implant Provisionals

ABOUT THE SPEAKER

Dr. Lee Ann Brady is a privately practicing dentist and nationally recognized educator, lecturer and author. With an extensive history in leadership, previously as Executive VP of Clinical Education for Spear Education and Clinical Director of the Pankey Institute; Dr. Brady is currently the Director of Education for Clinical Mastery, providing hands on and live patient programs across the country. Dr. Brady has also developed a vast library of online instruction at www.leeannbrady.com. She practices in Glendale Arizona, is a member of the editorial board for the Journal of Cosmetic Dentistry, Inside Dentistry and Dentaltown Magazine.
